

LOCATOR®

INTRODUCING THE LOCATOR OVERDENTURE IMPLANT SYSTEM (LODI)

NOW AVAILABLE THROUGH XPDENT

The LOCATOR® Overdenture Implant System

Until now, choosing a narrow diameter implant often meant a sacrifice in attachment performance and ultimately patient satisfaction. In order to provide patients with the quality of care that they desire, an increasing number of clinicians are now recognizing the unique benefits of using the next generation of narrow diameter implants for retaining overdentures.

The **LOCATOR Overdenture Implant System (LODI)** comes complete with the world's leading overdenture attachment. LODI has answered clinician requests and patient demands for a less invasive, more predictable and cost conscious technique for securing dentures.

The LODI system now allows you to treat patients with the minimum standard of care of an implant supported overdenture,* at a reduced cost and with greater satisfaction.

NEW! LOCATOR OVERDENTURE IMPLANT (LODI) HEALING CAPS

Zest Anchors has expanded the LODI System to include new Healing Caps for delayed loading protocols.

- Available for 2.4 and 2.9mm diameter implants, in 3 and 4mm cuff heights
- LOCATOR shape without the retentive feature is ideal during healing
- LODI Healing Caps can be finger tightened using a Tapered .050 inch (1.25mm) Hex Driver

The LOCATOR® Implant Surgical Kit

The **LOCATOR Implant Surgical Kit** makes implant procedures simpler, easier, and worry free. This empowers you to focus your energy on the clinical and esthetic results you're trying to achieve.

The easy-to-follow color-coded drill protocol and surgical kit design simplify the mental load and streamline the thought process.

LOCATOR Implants Premium Surgical Kit Includes:

- Direction Indicators
- Pilot Drill, 1.5mm
- Drill, 1.6, 2.1, 2.4, 2.6, 2.9, 3.2, 3.6, 4.1, 4.6mm
- Narrow and Standard Ridge Drill Stops
- Implant Latch Driver
- Implant Driver, Short and Long
- Rotary Tissue Punches
- Drill Extender
- LOCATOR Square Driver
- LOCATOR Implants Torque Indicating Wrench (not included in Standard Surgical Kit)
- LOCATOR Core Tool (not included in Standard Surgical Kit)
