visio.lign

Esthetics of Light and Design

We turn veneering upside down!

bredent

visio.lign

...the new veneering system

with multi-layer **novo.lign A** veneers for anterior teeth and **novo.lign P** veneers for posterior teeth and a bonding system in perfectly matched shades. Additional tooth and gingiva materials complete the system.

Your benefits

- Color stable and resistant thanks to industrially manufactured veneers
- Esthetic appearance thanks to anatomical shape and layering design
- Reproducible thanks to the use of identical moulds from the planning to the completion stage
- Time-saving and profitable
- Available in the classic A-D shades
- Resistant to plaque and abrasion thanks to complete hardening below 120 °C and at a pressure of 250 bars
- Dual-hardening fixation system ensures complete hardening during processing

Discover the wide indication range of visio.lign which will facilitate your daily work routines in the laboratory and support you during the fabrication of esthetic restorations.

visio.lign - the system for guaranteed esthetics

From the veneer-up to the definitive restoration

Selecting the shade and the design

The esthetic try-in supports planning and transferring and..

...is the basis for a perfect wax-up of the framework and guarantees ...

...individual restoration according to the patient's wishes
